

MEN'S FASHION: FALL

BY GEORGE FRANKS

Hello to all the guy readers out there! I don't know about where you live, but London's certainly starting to become cold enough for sweater weather. With fall just around the corner, here are some stylish, yet practical, pieces for you to wear going about your day.

JACKETS

Jackets are an obvious essential for brisk, breezy days. Parkas are perfect for layering over a sweater and keeping toasty!

For a lighter alternative, cord jackets can be thrown over a shirt and make an outfit look put together with ease...

SWEATERS

Ideal over a shirt or layered under a jacket, sweaters are Fall's best friend. They work with jeans and a tee for a casual look, or can be dressed up with smart shoes and pants for a more formal approach.
